

Terms of Service

Effective date: July 23, 2026

These Terms of Service ("Terms") govern your access to and use of the Discord application currently named "Geometry Dash" (the "Bot"), including its slash commands and any messages, embeds, or content it sends. By adding the Bot to a server, or by interacting with it in any server or DM, you agree to these Terms. If you do not agree, do not use the Bot.

1. What the Bot Does

The Bot provides informational commands related to the video game Geometry Dash, including level lookups, player statistics, leaderboards, the daily/weekly/event levels, and Demonlist information. This data is retrieved from public, third-party sources at the time of your request, including but not limited to gdbrowser.com and pointercrate.com (see Section 5). The Bot also includes a small number of commands restricted to its operator for administrative and moderation purposes, such as posting an announcement message on the operator's behalf.

2. Not an Official Geometry Dash Product

The Bot is an independent, fan-made project. It is not developed, operated, endorsed, or affiliated with RobTop Games AB, the official Geometry Dash game or servers, GDBrowser, or Pointercrate. All game names, assets, and data referenced by the Bot remain the property of their respective owners. "Discord" is a trademark of Discord Inc.; the Bot is not created by, affiliated with, or endorsed by Discord Inc.

3. Acceptable Use

You agree not to use the Bot to: (a) violate Discord's Terms of Service, Community Guidelines, or any applicable law; (b) attempt to disrupt, overload, or abuse the Bot, its underlying infrastructure, or the third-party services it queries; (c) attempt to gain unauthorized access to the Bot's host systems, source code, or administrative commands; or (d) use the Bot to harass, defame, or harm any person or community.

4. Availability and Changes

The Bot is provided on an "as available" basis. Commands depend on third-party services that the operator does not control, and their outages, rate limits, or changes may cause commands to fail or return incomplete data. The operator may add, remove, or change commands and features at any time without notice, and may suspend or discontinue the Bot entirely, in whole or in part, at the operator's discretion.

5. Third-Party Services

The Bot relies on public APIs operated by third parties, including gdbrowser.com and pointercrate.com, to retrieve Geometry Dash data. These services are operated independently of the Bot and are governed by their own terms and policies. The operator is not responsible for the accuracy, availability, or content of data returned by these third-party services.

6. Disclaimer of Warranties

The Bot is provided "as is" and "as available," without warranties of any kind, whether express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, or non-infringement. The operator does not warrant that the Bot will be uninterrupted, error-free, or that the data it returns will always be accurate or current.

7. Limitation of Liability

To the fullest extent permitted by law, the operator of the Bot shall not be liable for any indirect, incidental, special, consequential, or punitive damages, or any loss of data, arising from or related to your use of, or inability to use, the Bot.

8. Termination

The operator may block a server, user, or account from using the Bot at any time, for any reason, including a violation of these Terms, without prior notice.

9. Changes to These Terms

These Terms may be updated from time to time. Continued use of the Bot after changes take effect constitutes acceptance of the revised Terms. Material changes will be reflected by updating the effective date above.

10. Contact

Questions about these Terms can be directed to the Bot's support server, linked from the Bot's profile in the Discord App Directory, or to the operator directly on Discord.
